

This is a summary of the interventions that participants in the workshop came up with and presented to the group. We thank them for their engagement and active participation throughout our entire workshop! It was very inspiring for a group of jet-lagged travelers to see this much enthusiasm and creativity on the last day of the conference.

The first table is an example template we asked the participants to fill out when brainstorming their intervention. See the presentation materials for additional background and directions to the participants.

If you were a participant in the workshop and want to share information about your intervention that we were not able to capture from our pictures of your poster, please feel free to contact Chris Jowaisas with that additional information (chrisjow@uw.edu).

TEMPLATE	
Title	
Description	General summary of intervention
Intended Audience	Primary focus of intervention - Can be multiple here - but if so, need to address how you will reach and engage each of them
Delivery Mechanism	How will the library provide the mechanism - choose one or more - Online, in person, Hybrid
Learning Outcomes / Objective	Describe skills that participants will learn; other outcomes from participating (change in attitude, skills, or behavior); or other objectives of the intervention
Co-Design Partner	Identify a community or other organization partner in the intervention - Why is it important to work with this group? What assets does this partner bring?
Timeline to Launch	General time range should be noted (1-3 months, 3-6, 6-9, 9-12)
Topical Focus	Does your intervention support one of the NEXT Library themes? Democracy, Sustainable Development Goals, Play
Resources	Identify at a high level the internal, external, and community resources needed to launch the intervention

Kudos	Best Overall, Most Fun, Easiest to Implement, Most Likely to Change Minds, Most on Target for Audience, Supports NEXT Theme
-------	---
